Copy 2 of 5

Dear Bob:

Your attention is called to Part IV of the Schedule to Contract SP-1914 which requires negotiations to fix the final contract price after 10 units or upon expenditure of 75% of the contract amount, whichever occurs first.

The receipt of such a proposal which will soon be due since the 10 units have been delivered is anticipated. At this time it is proposed that the present contract price of [redacted] be established as the ceiling price on the subject contract.

25X1

Your comments are requested.

Yours very truly,

George
